

Cross Cutting Service Registry Discovery Pattern

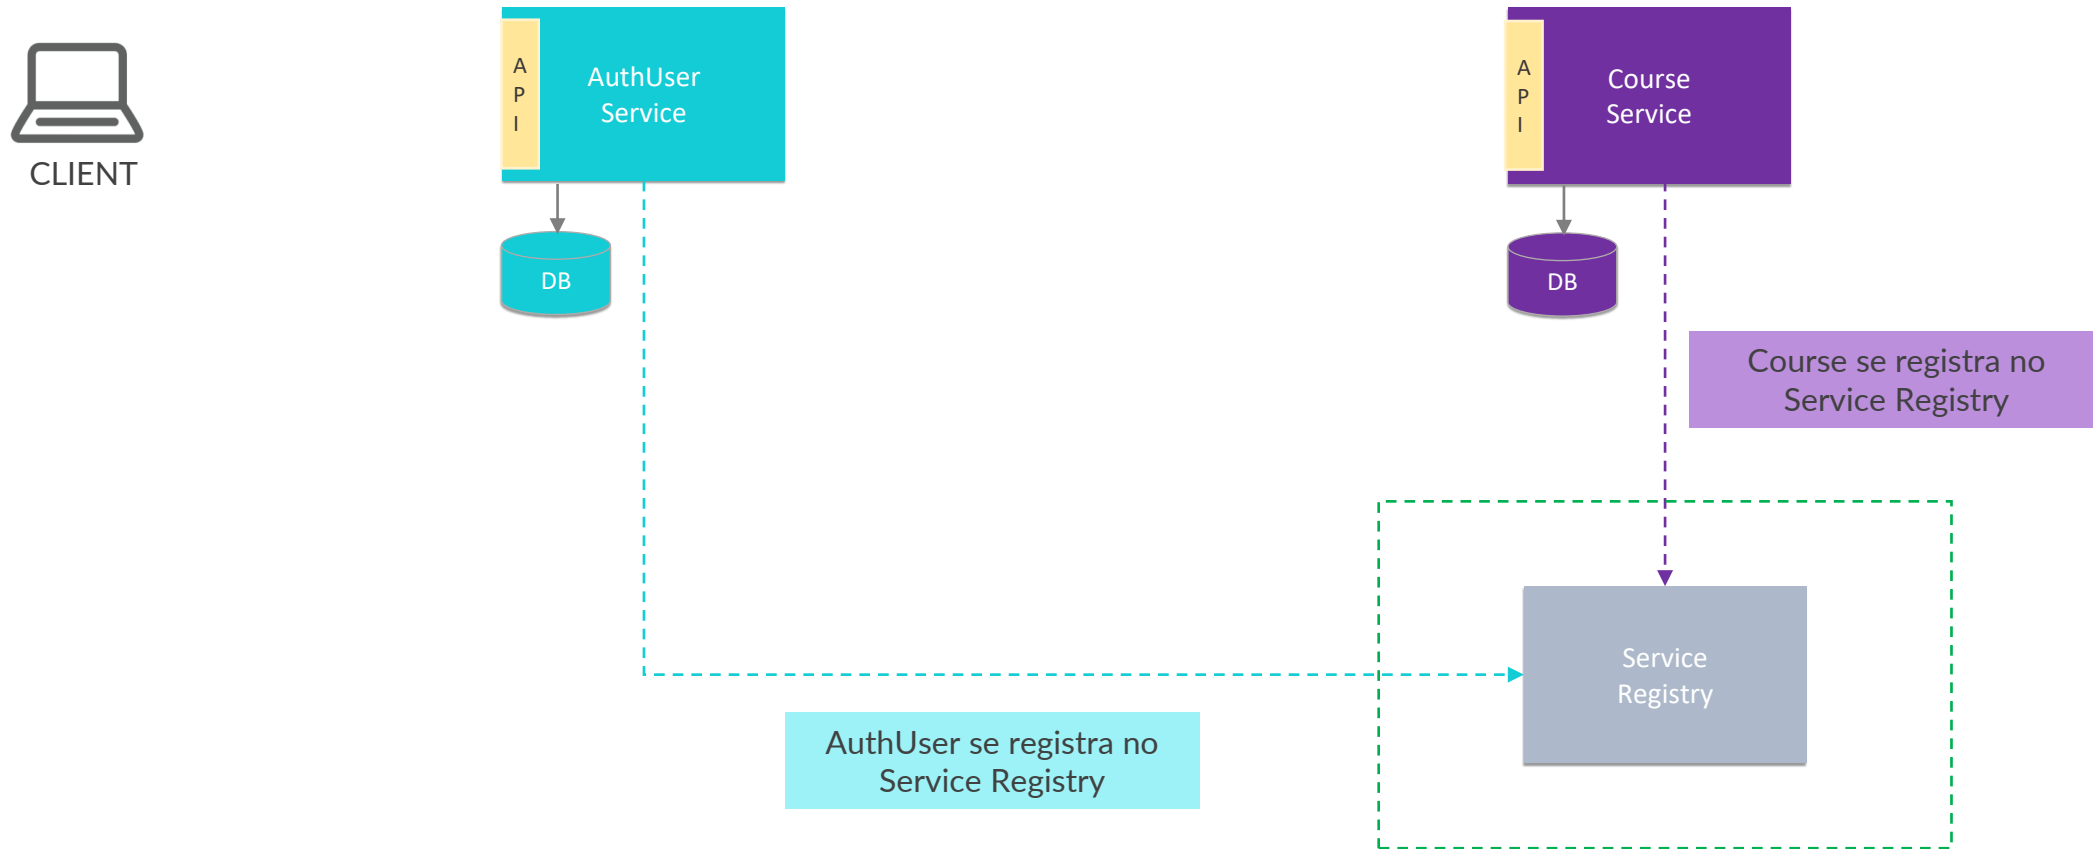

Service Registry Discovery Pattern

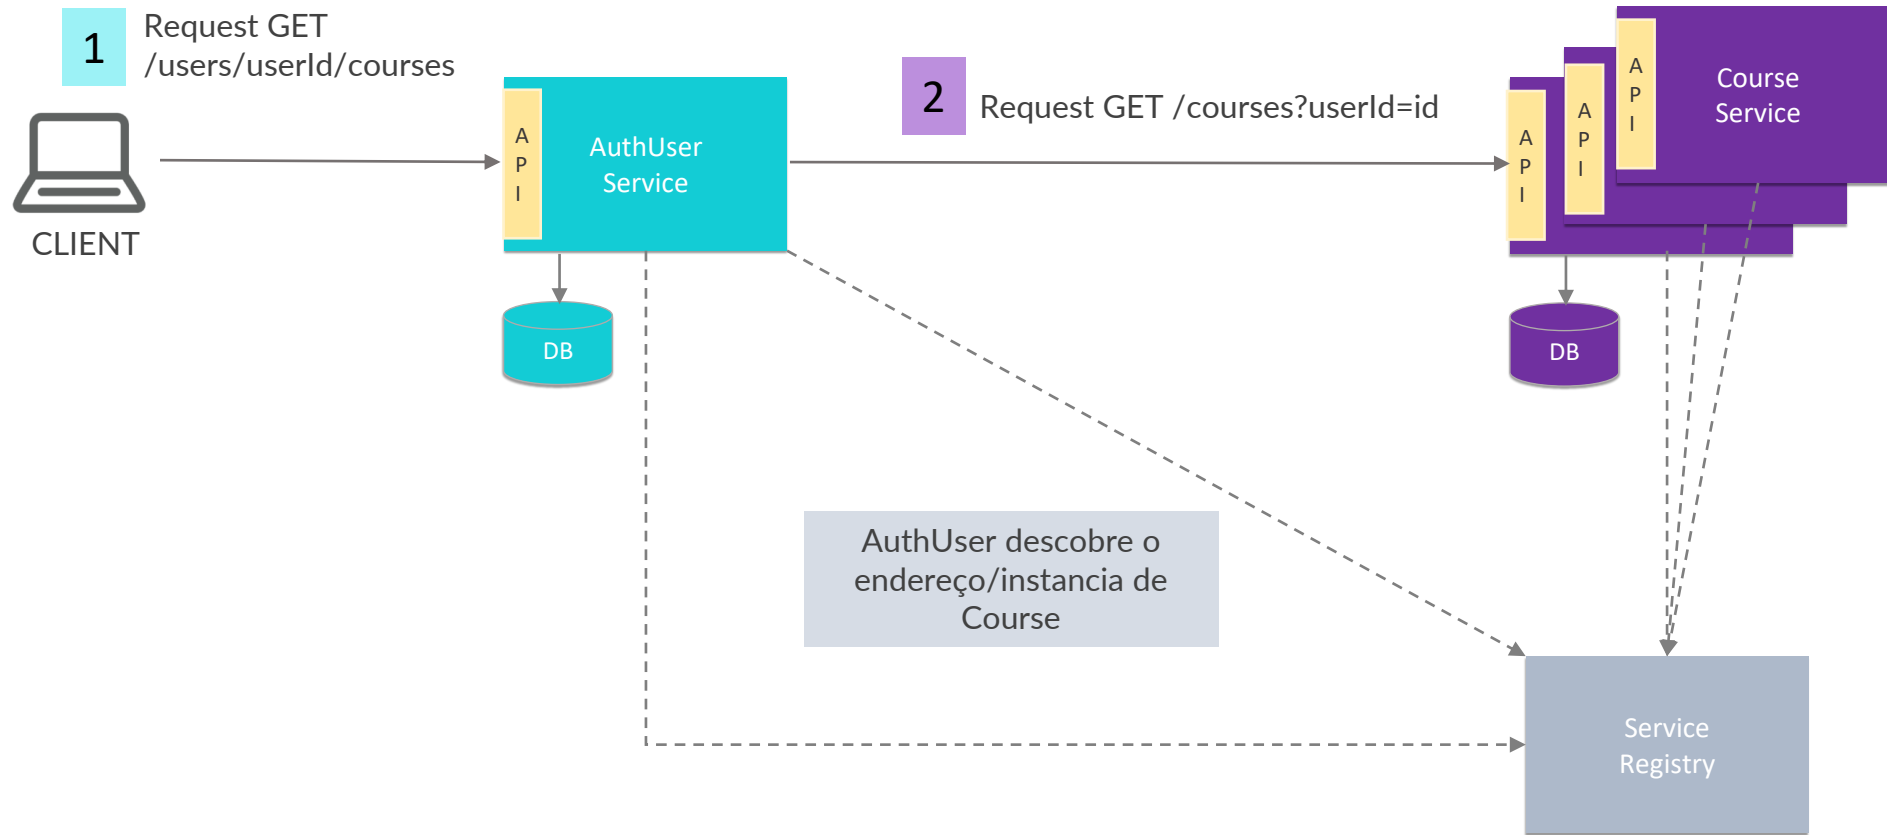

Implementação de um serviço de registro que monitora e armazena as instancias e localização dos Microservices, possibilitando a descoberta dinâmica desses serviços pelos clients.

Service Registry Pattern

Client-side Discovery Pattern

Next Steps

- Criar um Service Registry Microservice;
- Registrar os Microservices de Negócio no Service Registry;
- Descobrir os Microservices (endereços/instancias) de forma dinâmica para comunicação síncrona.
