

RabbitMQ e Exchange types

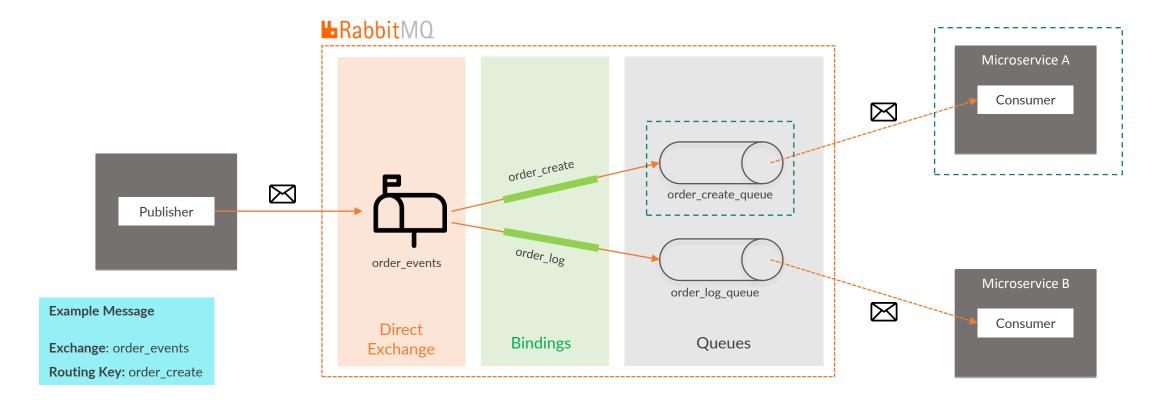

RabbitMQ – Principais Conceitos

- Protocolo padrão AMQP 0-9-1 (Advanced Message Queuing Protocol);
- Mensagens: Cabeçalho + Payload;
- Publishers/Consumers;
- Exchanges;
- Queues;
- Binding Key;
- Routing Key;
- · Consumo.

RabbitMQ Configuration

Exchange Types: Direct Exchange

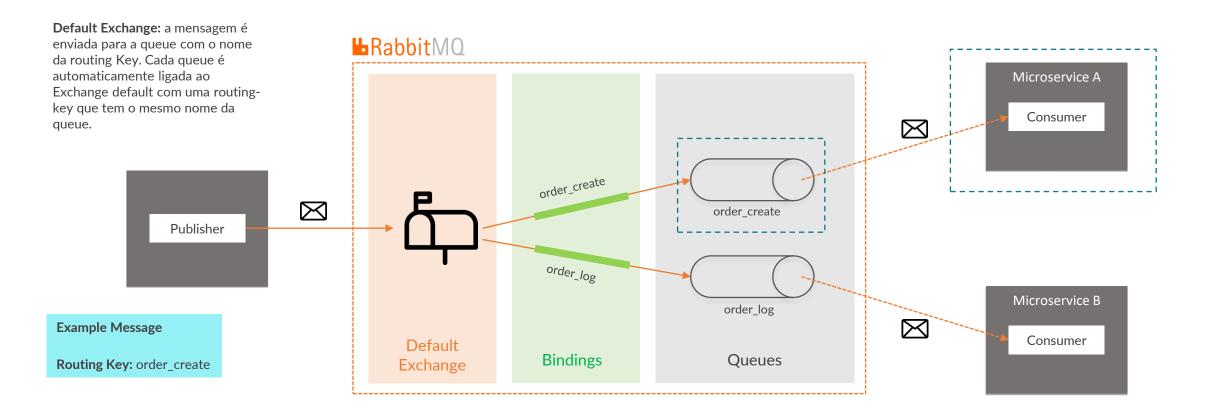

Direct Exchange => binding-key = routing-key

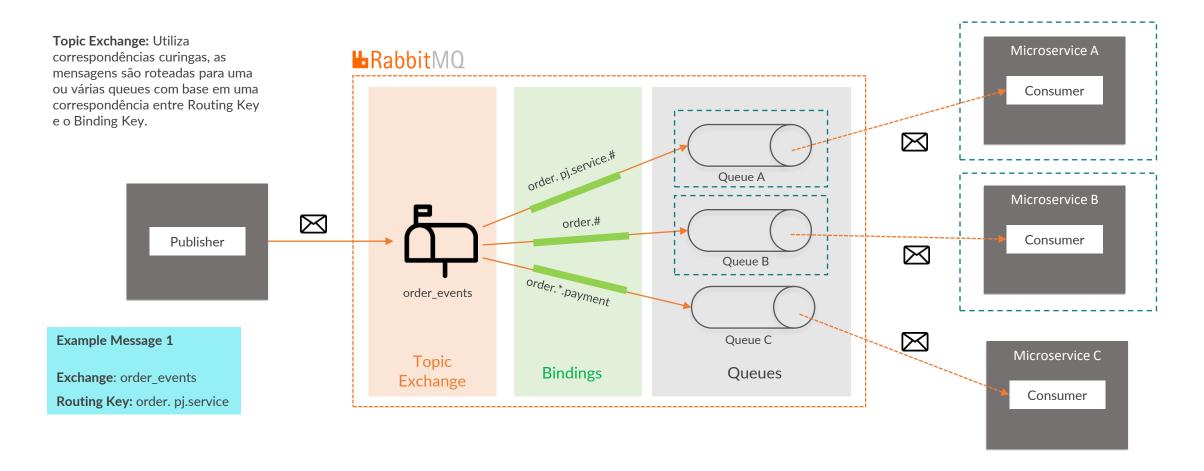

Observação:

Se a Routing-Key não corresponder a nenhum Binding Key, a mensagem é descartada.

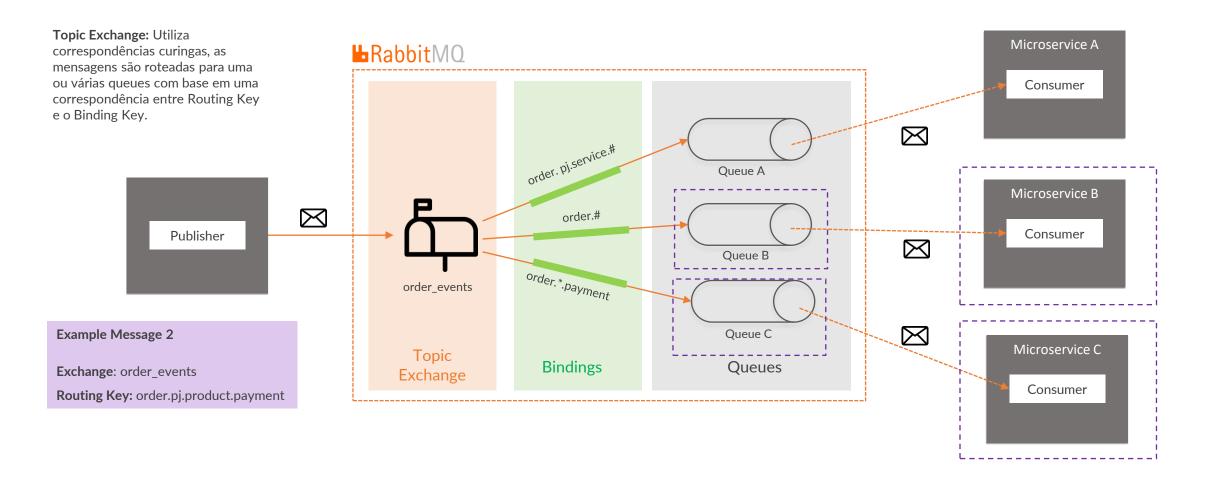

Exchange Types: Default Exchange

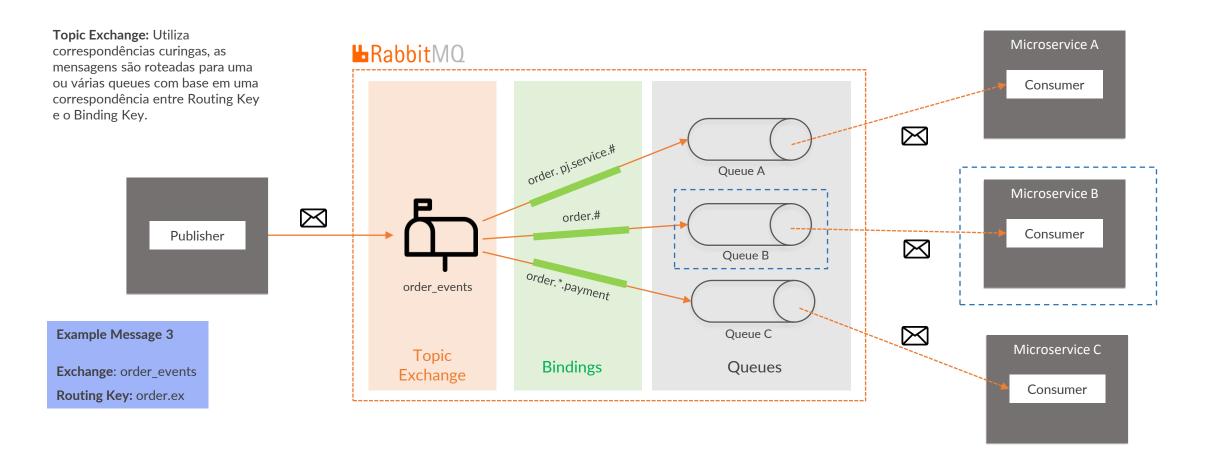

Exchange Types: Topic Exchange

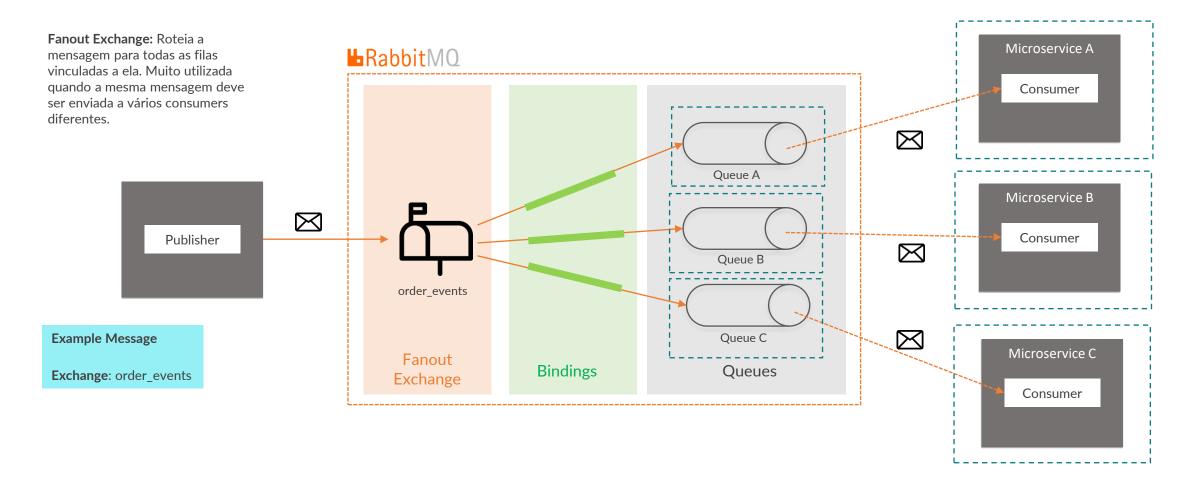

Exchange Types: Topic Exchange

Exchange Types: Topic Exchange

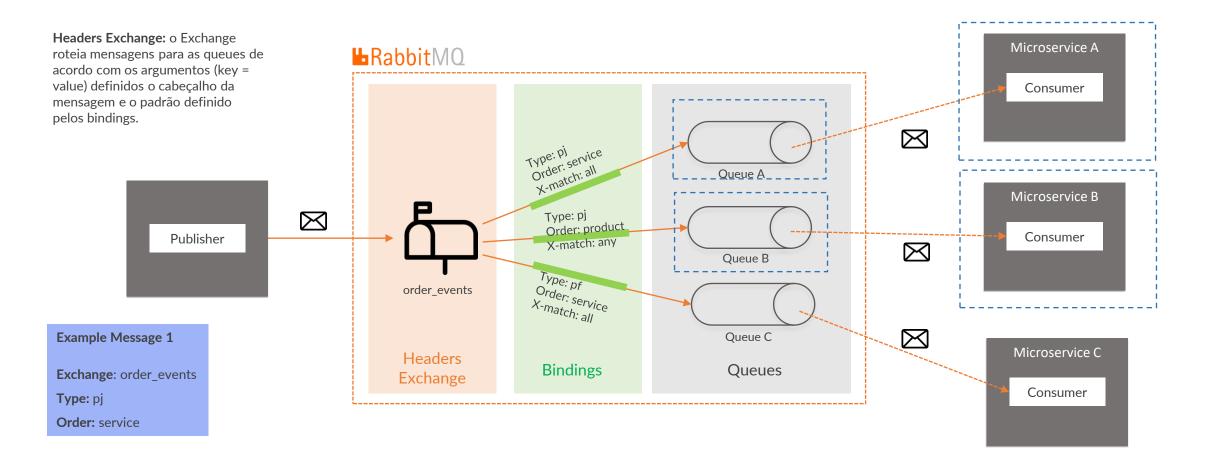

Exchange Types: Fanout Exchange

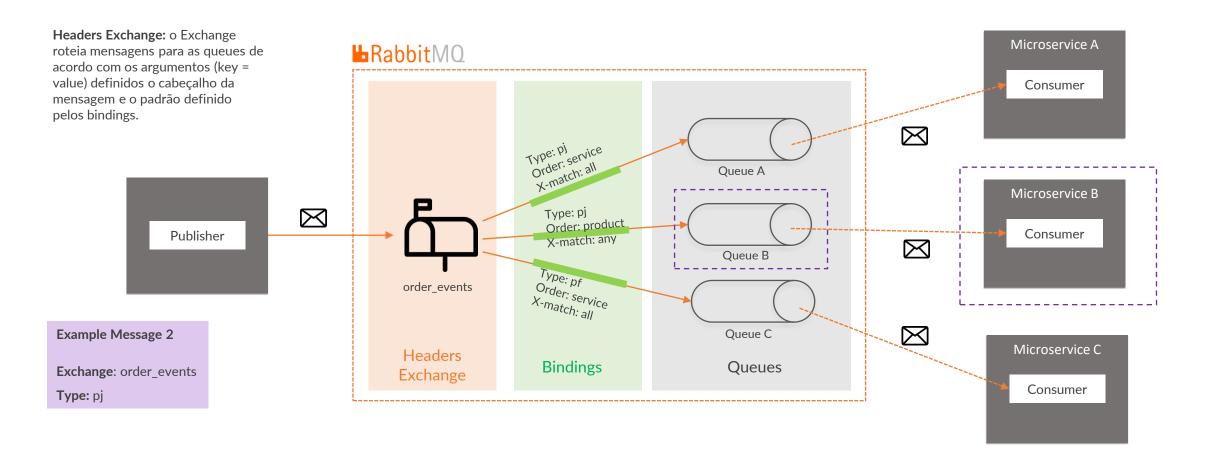

Observação:

É necessário enviar apenas o Exchange, ex: 'order_events', pois as Routing Keys enviadas são ignoradas.

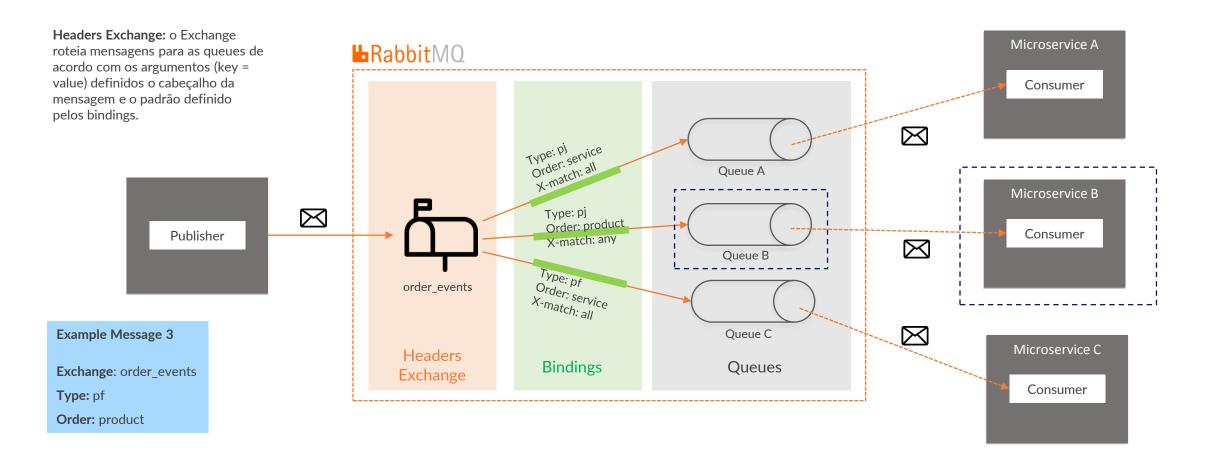

Exchange Types: Headers Exchange

Exchange Types: Headers Exchange

Exchange Types: Headers Exchange

Exchange Types: Dead Letter Exchange
